OLTEN - Free Life with Elegance

Simplifying Complexity, Surpassing
Functionality, Redefining the
Boundaries of Technology.

BASISTEM embraces a philosophy of refined simplicity, integrating aesthetics, structure, and functionality to deliver innovative kitchen solutions. OLTEN redefines the use of high cabinets with its ingenious pull-down system, providing seamless access to stored items while maximizing space efficiency.

- **Creative and ergonomic design:**

The self-adaptive pull-down mechanism ensures effortless operation, while the streamlined handle design offers a comfortable grip for users of all heights.

- **Optimized storage solutions:**

A high-medium-low partition system unlocks the full potential of upper cabinets, making them accessible and organized.

- **Harmonizing form and function:**

OLTEN combines aesthetic elegance with practical efficiency, bringing beauty and convenience to modern kitchen life.
