Pull-Out Storage System for Base Cabinets

SCHIERS

SERIES

SCHIERS Rebuilding Kitchen Life

Simplifying Away Complexities

Continuously listening and analyzing the real needs of users, and creating products that make homes cleaner, more organized, and more beautiful, is the guiding principle of BASISTEM in product design. By replicating kitchen lifestyle scenarios, deconstructing usage habits, and striving for a balance between aesthetics and practicality, we aim to find ways to help users enhance their kitchen lifestyle quality.

SCHIERS kitchen pull-out system fully absorbs the "cross-boundary inspiration" and integrates the most decorative and functional design elements to present users with a collection of works that combine aesthetics and practicality, elegance and nobility, and simplicity and sophistication - such as theater-style plate racks, portable kitchen utensil boxes that can be moved, and hanging pot and pan storage devices that avoid contaminating the cabinet.

The SCHIERS kitchen pull-out system uses the "six-division method" - item classification, function division, placement layering, height separation, size differentiation, dry and wet separation - to make kitchen storage more convenient and natural.

The SCHIERS kitchen pull-out system uses "multi-material combination" and combines exquisite craftsmanship and clever structural design to integrate functionality, quality, aesthetics, refinement, and elegance into one, making kitchen life better.

BASISTEM SCHIERS

BASISTEM

Yacht Cutlery Organizer

A Harmonious Fusion of Elegance and Functionality

The sleek and sophisticated design, inspired by the timeless beauty of yachts, reflects unparalleled taste and refinement. With its dual-layer structure, the organizer features a compact upper section and an elongated lower section, providing both aesthetic appeal and practical utility.

Carefully crafted details, such as the removable upper layer and ergonomic handles, make it effortless to use while maintaining a graceful appearance. Combining elegance and versatility, this cutlery organizer transforms everyday kitchen tools into an artistic display.

BASISTEM

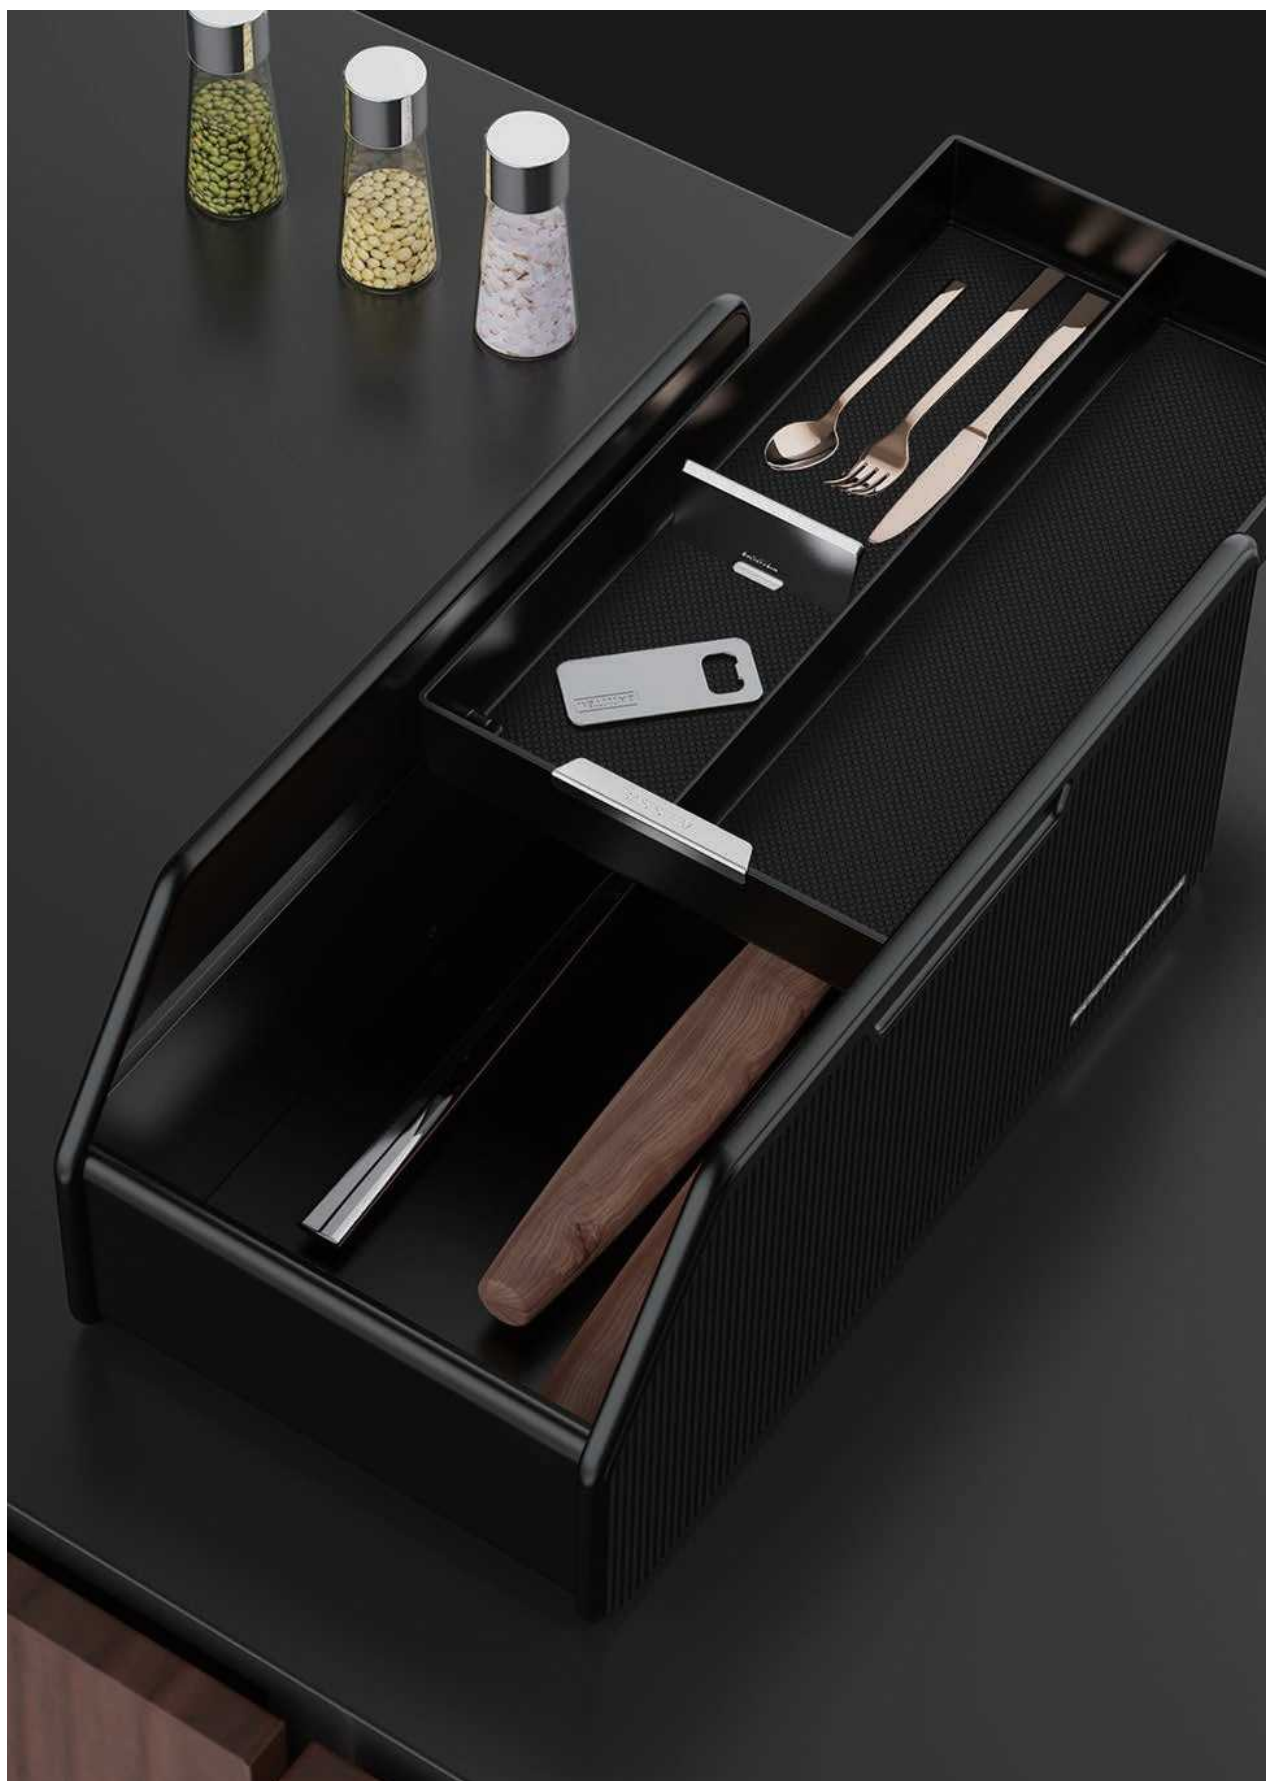

Sliding Tier Organizer

Innovative Kitchen Lift-up Cutlery Box:
Practical and Artistic

A portable and versatile cutlery box designed to adapt to various usage scenarios. With its sleek and streamlined design, it showcases refined craftsmanship, smooth textures, and an elegant appearance.

Featuring a dual-layer grid organizer, it offers smart and efficient storage, keeping items neatly classified and easily accessible. The upper storage tray slides effortlessly backward, providing convenient access to the spacious lower compartment. Built with a robust structure, the tray operates smoothly and is both waterproof and stain-resistant, ensuring durability and easy maintenance.

BASISTEM

Extendable Plate Lifter

Introducing a cutting-edge storage solution that combines Flexible

Adjustment with Maximum Efficiency to revolutionize your kitchen organization. Its Smart Design features an extendable structure built on a solid and stable base, delivering ample storage capacity while optimizing counter space. Enhanced with Ergonomic Features, it boasts an exquisite handle designed for a comfortable grip, ensuring effortless portability and seamless operation. The Universal Fit design accommodates dishware of various sizes and shapes (diameter range: 180-300mm), meeting diverse storage needs with ease. Crafted from Premium Materials, it exudes an elegant and refined appearance while guaranteeing long-lasting durability. Additionally, its Eco-Friendly & Easy Maintenance construction is waterproof and environmentally conscious, making cleaning simple and hassle-free. Elevate your kitchen experience with this blend of functionality, style, and sustainability.

BASISTEM

SCHIERS SERIES Plate & Bowl Pull-Out Drawer Sets

Innovative Kitchen Storage Solution:
Practicality Meets Artistry

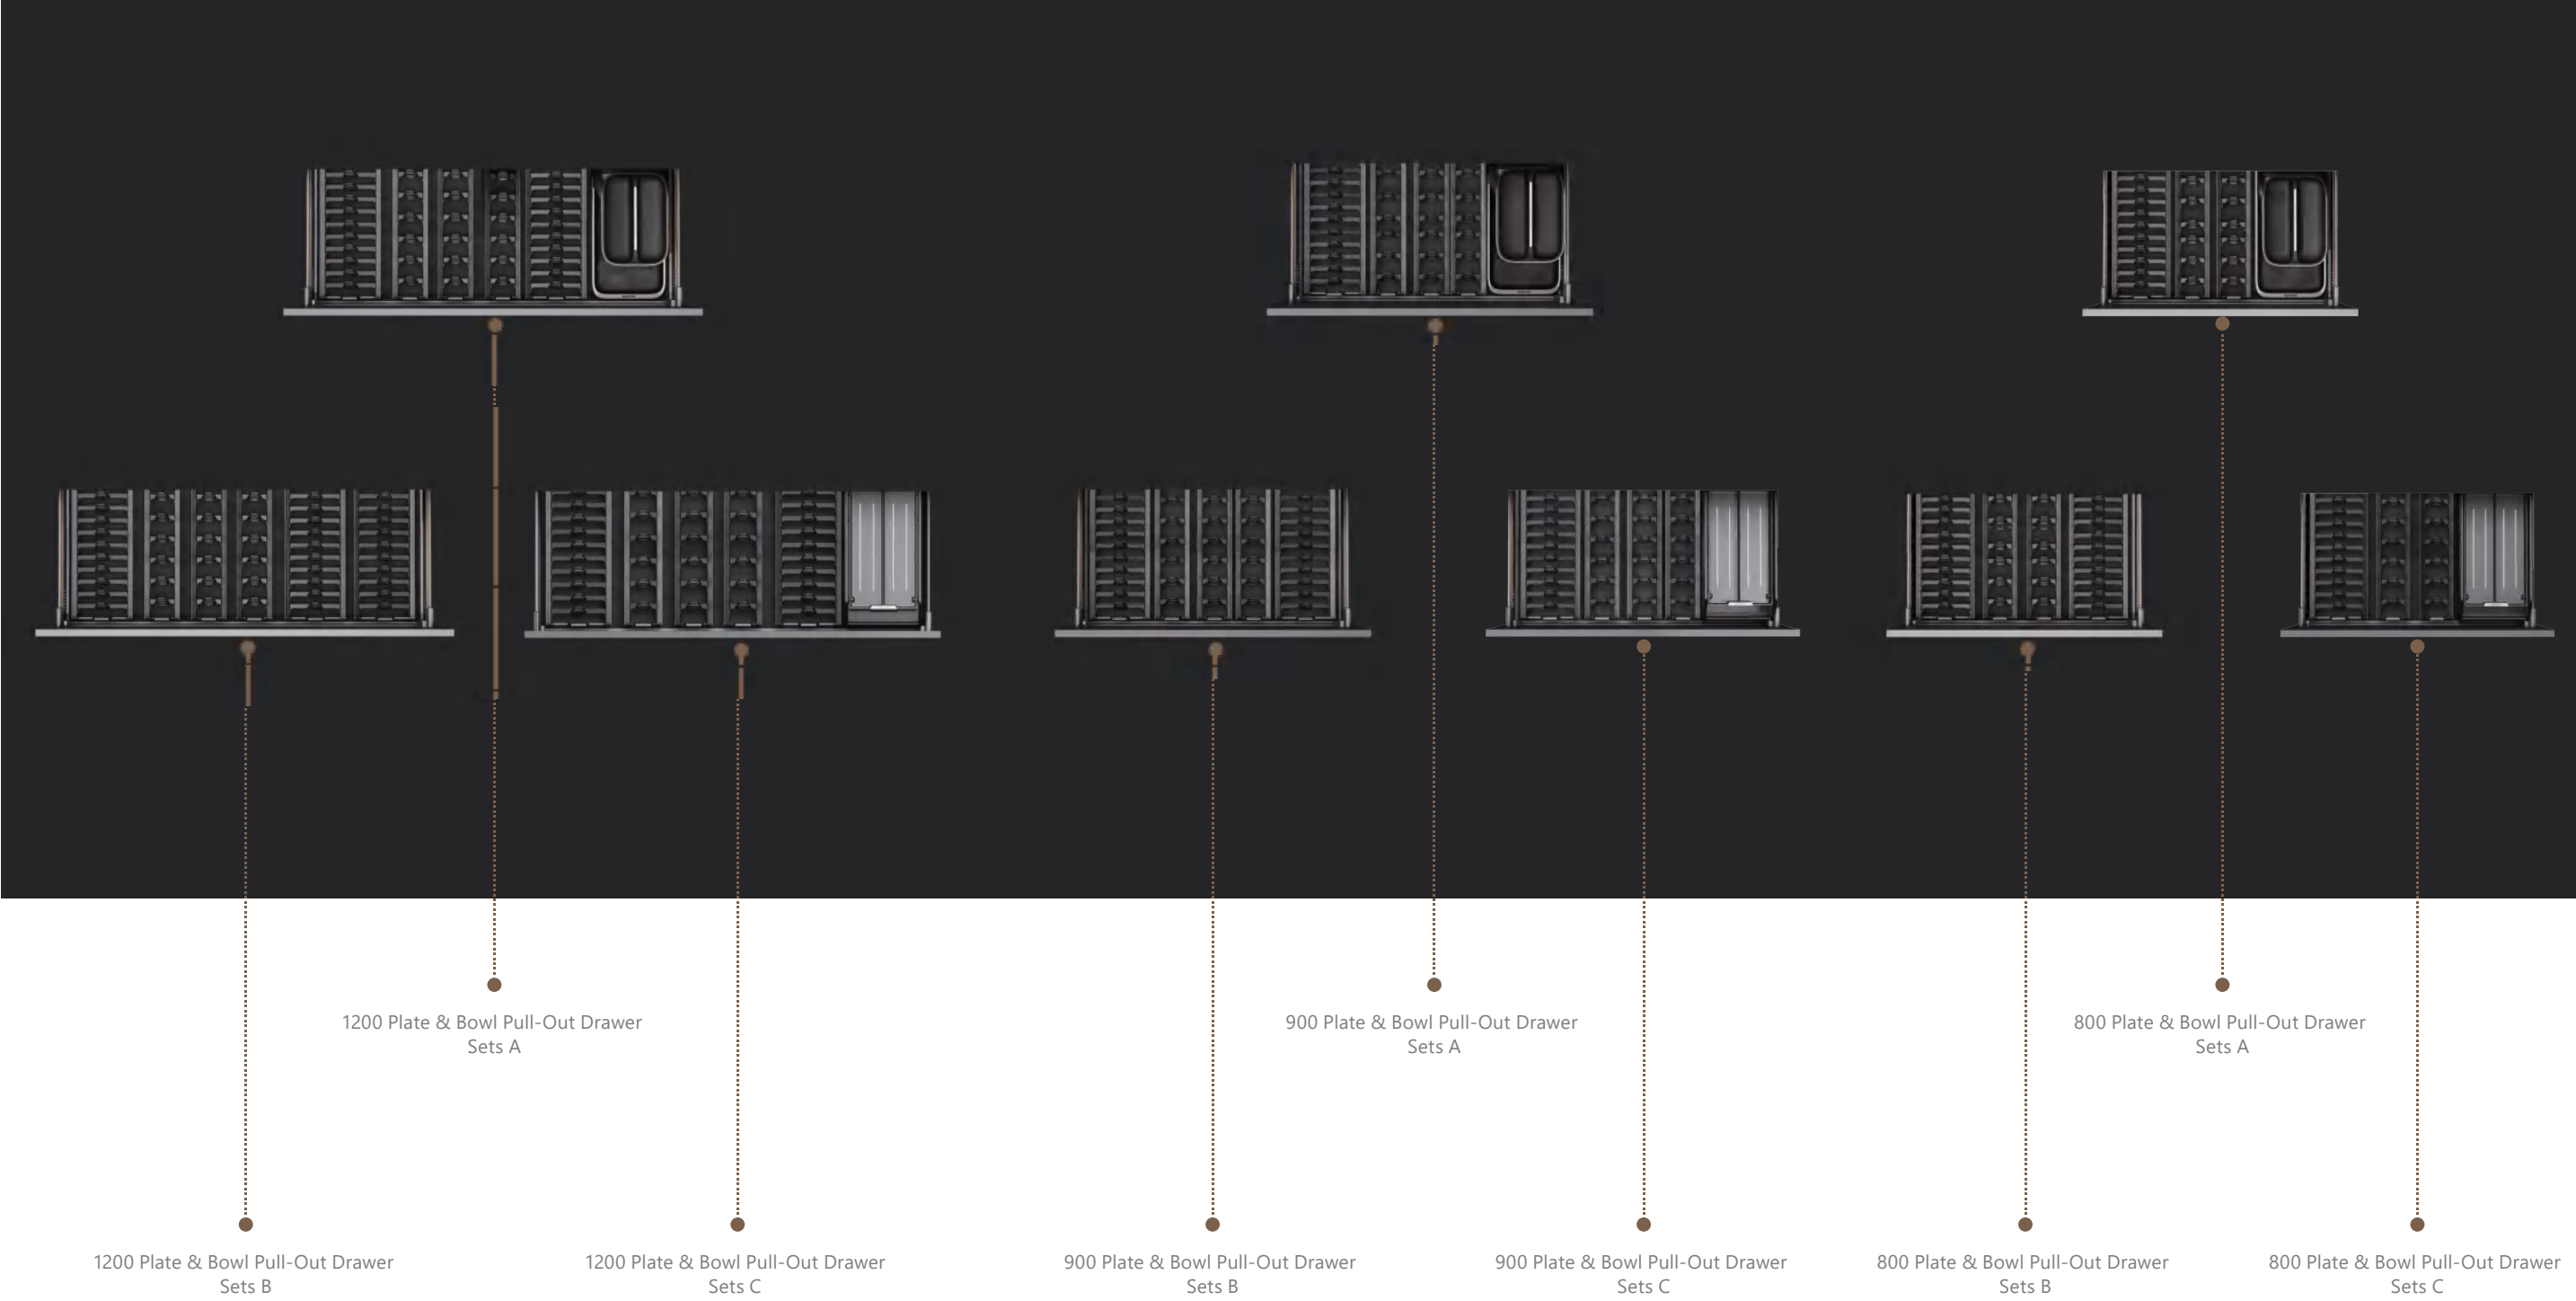

Versatile Combination Options: Enjoy the flexibility to mix and match different components to suit your specific needs and kitchen space, allowing for a customized storage solution.

Human-Centered Design: Featuring BASISTEM's unique design language, this product is crafted with user convenience and aesthetics in mind, ensuring a seamless and intuitive user experience.

Global Kitchen Compatibility: Designed to fit seamlessly into kitchens around the world, this set allows for easy integration and customization, making it a versatile choice for any kitchen layout.

Premium Quality and Elegance: The product is meticulously crafted to offer a refined look and feel, adding a touch of sophistication to your kitchen while providing functional storage.

Durable and Easy to Clean: Made with high-quality materials and superior craftsmanship, this set is built to last and is easy to maintain, ensuring long-term satisfaction and hassle-free cleaning.

BASISTEM

550 Integrated Pull-Out Unit with Secondary Pull-Out Basket

Innovative Multi-Tier Design
Functional, Elegant, and Efficient

The innovative multi-tier design ensures convenient access to items across different layers. It maximizes storage efficiency by utilizing narrow spaces effectively. Exuding elegance and sophistication, the drawer highlights BASISTEM's signature design aesthetics.

The baseboard is heat-resistant, scratch-proof, waterproof, and easy to clean, supporting up to 40kg with seamless sliding mechanisms. Its solid wood side panels feature a classic perforated design for enhanced ventilation, dryness, and aesthetics. Additionally, it is compatible with BASISTEM's original wooden storage boxes, creating a more organized and streamlined kitchen experience.

BASISTEM

450 Integrated Pull-Out Unit with Lift and Hang System

Innovative Design Featuring
Primary-Secondary Functionality,
Combining Practicality and Aesthetics.

The unique lifting mechanism accommodates long kitchen tools, adding functionality and elegance to the design.

A powerful and versatile layout meets various storage needs, optimizing limited space efficiently.

The baseboard is crafted to resist high temperatures, scratches, and moisture, ensuring long-lasting durability and easy cleaning.

Capable of supporting up to 40KG, the sturdy baseboard ensures stability and effortless sliding.

The classic breathable long hole design of the solid wood side panels enhances air circulation, maintaining dryness and freshness.

Additionally, it can be paired with BASISTEM's original wooden storage boxes to provide even greater organizational flexibility.

BASISTEM

400 Integrated Pull-Out Unit with Multi-Purpose Storage

Innovative Design with Towel Rack for Enhanced Care and Functionality

This innovative pullout basket is designed to seamlessly combine practicality and elegance for modern kitchens. The integrated towel rack brings added convenience, ensuring that every detail of kitchen organization is thoughtful and user-friendly.

Crafted with high-quality materials, the baseboard is resistant to high temperatures, scratches, and water, making it durable and easy to clean. With a load capacity of up to 40kg, this basket ensures stability and effortless sliding for enhanced functionality.

The solid wood side panels feature a classic long-hole breathable design, adding a touch of timeless beauty while maintaining airflow to keep items dry. This pullout basket is compatible with BASISTEM's original wood storage box, offering a cohesive and orderly storage solution for a refined and efficient kitchen space.

BASISTEM

350 Integrated Pull-Out Unit with Multi-Purpose Storage

Simple Yet Functional Design with Comprehensive Features

This versatile drawer basket is thoughtfully designed to organize and optimize storage for various kitchen essentials. Its refined layout accommodates a variety of seasoning containers, ensuring accessibility and orderliness in any culinary workspace.

The baseboard, crafted from durable materials, is resistant to high temperatures, scratches, and water, making it easy to clean and maintain. With a maximum load capacity of up to 40KG, the sturdy construction ensures seamless and smooth sliding, enhancing user convenience. The solid wood side panels, featuring a classic long-hole breathable design, not only add a touch of elegance but also ensure proper ventilation. For a cohesive and stylish storage solution, this drawer basket pairs seamlessly with BASISTEM's original wood storage boxes, transforming your kitchen into an efficient and harmonious space.

BASISTEM

200 Integrated Pull-Out Unit with Secondary Pull-Out Basket

Innovative Primary-Secondary Design
for Enhanced Functionality and Refined Aesthetics.

Designed with an innovative dual-level structure, this side drawer basket redefines the functionality of narrow spaces. Its layout maximizes storage efficiency while offering seamless access to items. Equipped with BASISTEM's signature ergonomic handle, it ensures smooth and effortless operation every time.

Built from high-quality, durable materials, the basket is scratch-resistant, waterproof, and easy to clean. Its refined design combines elegance and practicality, bringing both organization and style to your kitchen.

BASISYSTEM

Inner Pull-Out Unit for Pans, Top Mounted

Innovative Pan Storage Solution
for Base Cabinets

Designed to redefine kitchen organization, this pullout basket is a testament to innovative functionality and thoughtful design. Perfectly crafted for base cabinets, it elevates storage solutions with a unique blend of elegance and practicality.

The vertical pot holder system ensures pots remain clean and avoids contact with cabinet surfaces. Its specially designed curved hooks with inclined edges securely hold pots, preventing unwanted movement or collisions. The basket's warm, refined texture adds a touch of sophistication to its robust functionality, while its waterproof and stain-resistant surface makes maintenance effortless.

Supporting up to 35kg, the basket offers exceptional stability and smooth, silent sliding for enhanced user experience. Seamlessly combining functionality and artistry, this BASISYSTEM creation transforms kitchen organization into an elegant and efficient experience.
